## PROJECT MANAGEMENT

A sound business strategy is essential to success. Without disciplined execution, the same strategy renders little value. Iha Development is a project management powerhouse that helps you succeed where companies often fail – in implementation and execution. We advise on and execute your most complex initiatives so that you realize your desired results.

## PRODUCT DEVELOPMENT

When designing your product, we take into consideration your goal and that is to create a favorable impression of the product. A good product design results in smarter, cheaper production, maximizing the materials and increasing sales. Our designers can suggest the right materials and manufacturing process that will be used.

## ENGINEERING AND PLM

We partner with our clients to understand their goals, providing leadership and organization to produce designs that achieve their requirements in terms of function, schedule, budget, feasibility, safety, and longevity.

## IT SOLUTIONS

With our years of experience in designing, implementing, securing and managing technology infrastructure we allow your organization to focus on its core mission and maintain a competitive edge.
